

## COLORSORB TECHNICAL DATASHEET

### ColorSorb® C9

# powdered wood based activated carbon

ColorSorb® C9 is a general purpose adsorbent manufactured using steam activation of selected grades of wood. This material exhibits a mesopore system, ideal for the rapid diffusion and efficient adsorption of light organic molecules. The unique manufacturing process provides a range of materials, readily capable of operating in equilibrium with the pH of the adsorption system. Strict control of the particle size is used to optimize adsorption kinetics and assist with efficient filtration.

#### Specification\*

lodine number	min. 600 mg/g
Total ash content	max. 8%
Moisture content	max. 5%
рН	9 - 11

#### Particle Size Distribution

<100 USS (0.15 mm)	95 - 100%
<200 USS (0.075 mm)	80 - 95%
<325 USS (0.045 mm)	65 - 80%

#### Typical Properties\*

Surface area (BET) 700 m<sup>2</sup>/g

#### Features and Benefits

- Steam activation
- General purpose adsorbent
- Unique mesopore system
- Low mineral ash content
- Stringent pH specification
- Strictly controlled particle size

#### **Typical Applications**

- Glycerine (technical)
- Gelatine
- Edible oil and fat
- Electrolysis process

#### **Certifications and Approvals**

• US Food Chemicals Codex

#### Standard Packaging

- 20 kg (44 lb) sacks
- 500 kg (1100 lb) bulk bags

<sup>\*</sup>Specifications and typical properties are produced using Jacobi Carbons' test methods. They are listed for informational purposes only and not to be used as purchase specifications. Sales specifications can be obtained from your Jacobi Carbons Technical Sales Representative and should be reviewed before placing an order.

based on this data.

Paper bags, 20 bags per pallet.

The information contained in this datasheet is intended to assist a customer in the evaluation and selection of products supplied by Jacobi Carbons. The customer is responsible for determining whether products and the information contained in this document are appropriate for customer's use. Jacobi Carbons assumes no obligation or liability for the usage of the information in this datasheet, no guarantees or warranties, expressed or implied, are provided. Jacobi Carbons disclaims responsibility and the user must accept full responsibility for performance of systems

**CAUTION** Activated carbon is a strong oxidizing agent and can remove oxygen from air under wet or humid conditions. Care should be taken when entering confined spaces where wet activated carbon is present. Ensure the use of correct breathing apparatus. Material Safety Data Sheets should be consulted for further

WORLDWIDE DISTRIBUTORS A diverse network of agents, strategically located around the world. Please contact any Jacobi Carbons office to locate your nearest distributor. AquaSorb®, EcoSorb®, GoldSorb®, ColorSorb®, DioxSorb®, AddSorb® and Jacobi are registered trademarks of Jacobi Carbons.
